

Airline Temperature & Weather Restrictions

United Airlines

United may decline acceptance or alter the routing if temperatures are outside of a safe range.

United no longer accepts reservations to and from the following airports annually between May 1 and September 30, due to high temperature restrictions:
Las Vegas (LAS), Palm Springs (PSP), Phoenix (PHX), Tucson (TUS)

Delta Airlines

Pets can be transported as long as temperatures do not exceed a maximum of 80F and a minimum of 20F during the time an animal will be in any station during transport.

****Acclimation Statement is required for all shipments****

American Airlines

Pets can be transported when ground temperature are between 20 and 85 degrees Fahrenheit. This applies to origin, connection, and destination cities.

****Acclimation Statement is required for all shipments****

American no longer accepts reservations to and from the following airports annually between May 1 and September 30, due to high temperature restrictions:
Las Vegas (LAS), Palm Springs (PSP), Phoenix (PHX), Tucson (TUS)

Alaskan Airlines

Temperature restrictions vary depending on location. Please contact our office for any updates regarding temperatures prior to requesting travel.

Notice

Airlines do not guarantee acceptance of any animal before it is seen by airport personnel. Also please remember, if the Agent determines temperature are unsuitable for transporting your animal, it is with the safety and health of you pet in mind.
